

Crianza Finca Valdelayegua 2016

GRAPE VARIETIES:

95% Tempranillo, 3% Cabernet Sauvignon and 2% Merlot

GRADE:

13.5% vol

TYPE OF SOIL:

Sandy loam and clay-loam soils with limestone outcrops

COLOUR:

Dark cherry red with intense bluish nuances, deep and bright

AROMA:

High intensity, with dominating ripe red fruit and sweet sensations from barrel ageing. Complex, balsamic and mineral background

PALATE:

Tasty in the mouth, with rounded tannins and a pleasant freshness on the palate. Tasty finish, with great concentration of fruit and a velvety finish

KNOW THIS WINE BETTER

It is made with the best grapes in Pago Valdelayegua, a vineyard that contributes unique qualities to the wine. At an average height of 815 metres above sea level, it produces grapes of great colour and structure, thanks to a high proportion of clay-limestone soil, the result of the sedimentation of particles that the river Gromejón carried in suspension millions of years ago.
